

PRODUCT DATA SHEET

Orsa 35

DESIGN BY:

Foster + Partners Industrial Design

MATERIALS:

methacrylate, aluminum, brass

DESCRIPTION:

Orsa is an embodiment of precision – an elegant pendant light pared down to its essential elements, allowing the light to express a larger volume. A slim metal stem flares out at one end to form the heat-sink and housing for the LED, with a UV bonded methacrylate cover containing the light source. The design of the methacrylate cover ensures that the light source remains invisible, giving it an appearance of a floating disk of light. The industrial design team at Foster + Partners experimented with various materials, surfaces and optics to achieve the desired lighting effect and volume. An elegant, minimalist object, Orsa is designed as a single piece or as a part of a larger ensemble.

Light emission

IP20

Dimmable

TECHNICAL DATA SHEET

FEATURES

Product name:	Orsa 35
Article Code:	0352030A
Colour:	Black
Material:	methacrylate, aluminum, brass
Series:	Design
Environment:	Indoor

OPTICS

Emission:	Direct
-----------	--------

DIMENSIONS

Height:	cm 70
Diameter:	cm 34.5
Max Height from ceiling:	cm 170

COLOUR

LAMPS INCLUDED

Category:	LED
Number:	1
Watt:	20W
Color temperature (K):	3000K
Class:	A

LUMINAIR

Watt:	20W
Voltage:	220-240V
Luminous Flux (lm):	1861lm
CCT:	3000K
Efficiency:	90%
Efficacy:	93.03lm/W
CRI:	90
Dimmable Typology:	Push

PRODUCT DATA SHEET

Orsa 21

DESIGN BY:

Foster + Partners Industrial Design

MATERIALS:

methacrylate, aluminum, brass

DESCRIPTION:

Orsa is an embodiment of precision – an elegant pendant light pared down to its essential elements, allowing the light to express a larger volume. A slim metal stem flares out at one end to form the heat-sink and housing for the LED, with a UV bonded moulded glass cover containing the light source. The design of the glass cover ensures that the light source remains invisible, giving it an appearance of a floating disk of light. The industrial design team at Foster + Partners experimented with various materials, surfaces and optics to achieve the desired lighting effect and volume. The precision glass takes its shape from the focused output of the LED which is diffused through a specially engineered etched lens, focussing the light over a wider area. An elegant, minimalist object, Orsa is designed as a single piece or as a part of a larger ensemble.
