- Suitable for a wide variety of private and public environments
- Qualified for contract use

CPH DEUX 210 TABLE DESIGN BY RONAN & ERWAN BOUROULLEC

Part of the Copenhagen range designed by Ronan and Erwan Bouroullec, the CPH Deux 210 Table shares the same uncluttered profile and strong identity that are consistent with the rest of the collection. This variant comes in square and rectangular designs, making it equally suitable for using as a desk, conference table or dining table in an office context or a private setting. It is available in several sizes with a solid beech or oak frame in various finishes, and the plywood tabletop has different Nanolaminate colour options. All tables in the series are EU-ecolabelled and made from FSC-certified wood with a water-based lacquer

Ronan & Erwan Bouroullec the Paris-based design brothers from Brittany have been working together since 1998. Ronan is a graduate of the École Supérieure des Arts Décoratifs in Paris and Erwan attended the École Nationale Supérieure des Arts in Cergy before starting their own studio. They have transformed the design industry and offered new perspectives of materiality and purpose. For HAY, they have designed the Palissade Collection, Copenhagen Collection, Can Sofa, Élémentaire Chair, Passerelle Table and Pier System.

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise the environmental impact throughout their lifecycle. We prioritise carefully selecting materials, such as recycled content, FSC-certified wood, and water-based lacquer, while continuously increasing the number of eco-certified products. We adhere to strict regulatory requirements, and the majority of our products are tested to meet international standards for strength, durability, and safety.
