

DESIGN BY RONAN & ERWAN BOUROULLEC

HAY

PIER SYSTEM

HIGHLIGHTS

- Multifunctional modular storage system designed to accommodate and adapt to modern lifestyle requirements
- Flexible design enabling it to be extended, moved, or modified to suit infinite spaces and functions
- Constructed from lightweight aluminium and steel using the minimum number of components required to create a complete configuration
- Flat-pack design that is easy to assemble and reconfigure
- Suitable for a wide variety of private and public environments
- Qualified for contract use

PIER SYSTEM DESIGN BY RONAN & ERWAN BOUROULLEC

Designed by French designers Ronan & Erwan Bouroullec, Pier System is a multifunctional storage system developed to accommodate and adapt to modern lifestyle requirements. Featuring a flat-pack design that is easy to assemble, reconfigure and recycle, the simple construction provides a flexible shelving solution for organising and storing a multitude of items. Constructed from lightweight aluminium and steel using the minimum number of components required to create a complete storage system, Pier System is available in a variety of colours and set configurations that can be combined with each other. Elements that are part of these configurations can be moved around as needed and desired, enabling the user to incorporate work, wardrobe or organisational functions into most rooms and environments, from living rooms and bedrooms to entrance halls and office areas.

Ronan & Erwan Bouroullec the Paris-based design brothers from Brittany have been working together since 1998. Ronan is a graduate of the École Supérieure des Arts Décoratifs in Paris and Erwan attended the École Nationale Supérieure des Arts in Cergy before starting their own studio. They have transformed the design industry and offered new perspectives of materiality and purpose. For HAY, they have designed the Palissade Collection, Copenhagen Collection, Can Sofa, Élémentaire Chair, Passerelle Table and Pier System.

DIMENSIONS | PARTS

SHELF

Width 79 cm
Depth 31 cm
Height 6 cm
Inner dim. W76,5 x D30 cm

MATERIAL | Punched and bent powder coated sheet steel.
Aluminium connectors.

MAX LOAD WEIGHT | 15 kg evenly spread across the surface.

CABINET

Width 79 cm
Depth 33,5 cm
Height 41,5 czm
Inside dim. W75 x D27,5 x H34,4 cm
Inner top dim. W76,5 x D30 cm

MATERIAL | Punched and bent sheet steel. Door in aluminium
with a magnet closure. Aluminium connectors.

MAX LOAD WEIGHT | 15 kg evenly spread across the surface.
30 kg for the whole cabinet.

COAT RACK

Width 79 cm
Depth 11 cm
Height 6 cm
Knobs dim. 4,5 cm

MATERIAL | Die cast aluminium knobs.
Aluminium extrusion. Aluminium connectors.

MAX LOAD WEIGHT | 15 kg evenly spread across all the
knobs.

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise the environmental impact throughout their lifecycle. We prioritise carefully selecting materials, such as recycled content, FSC-certified wood, and water-based lacquer, while continuously increasing the number of eco-certified products. We adhere to strict regulatory requirements, and the majority of our products are tested to meet international standards for strength, durability, and safety.
