

Nef / Armchair Design / Patrick Norguet

The Nef aluminium seat collection combines eclectic style and visual lightness with a solid structure, inspired by the graphic design of hot air balloons. The interweaving of polyester cords gives a natural feeling of comfort and ease to the armchair and relax chair.

Description

Code: **626**
Line: **EMU Advanced**
Typology: **Lounge Chairs**
Collection: **Nef**

Seat Cushion: Yes
Static Load: 200 Kg
Cushion Material: Acrylic Fabric

Technical Info

Width: **63 cm**
Depth: **60 cm**
Height: **81 cm**
Weight: **4.1 Kg**
Static Load: **200 Kg**
Seat Cushion: **Yes**

Packaging

Packages: **1**
Pieces for pack: **2**
Dimensions: **87x85x66 cm**
Volume: **0.488 m³**

Polyethylene bag and cardboard box

Nef / Armchair
Design / Patrick Norguet

Colors

Matt White - Light Grey

Black - Black

Grey/Green - Dark Green

Nef / Armchair Design / Patrick Norguet

Materials

Aluminium

Aluminium alloys, particularly suitable for cold-working and for die-casting, appropriately treated to withstand the elements and powder coated.

Maintenance: To keep the product in good condition for a long time, we recommend cleaning it regularly; more often in very damp locations with a marine climate. It is recommended to clean the surfaces using a soft cloth with water or mild detergents. Prolonged and continuous exposure to intense UV radiation or very low temperatures can affect the initial characteristics of the coloured coating, which is made from polyester. We recommend cleaning and storing the products in sheltered places during prolonged periods of non-use and during the winter.

Stainless Steel

Polished AISI 316 stainless steel.

Maintenance: To keep the product in good condition for a long time, we recommend cleaning it regularly; more often in very damp locations with a marine climate. It is recommended to clean the surfaces using a soft cloth with water or mild detergents. Prolonged and continuous exposure to intense UV radiation or very low temperatures can affect the initial characteristics of the coloured coating, which is made from polyester. We recommend cleaning and storing the products in sheltered places during prolonged periods of non-use and during the winter. Removing stains or rust: apply a specific non-abrasive detergent/polish for stainless steel; test on a hidden stain to make sure that the original surface finish is not altered; remember to rub lengthwise (not in a circle); do not use abrasive pads; rinse thoroughly with clean water; finally dry thoroughly to prevent streaks, rub in the direction of the fibres.

Synthetic Rope

Double braid with polyester core and multi filament propylene covering. The external braid is waterproof and resistant to UV rays.

Maintenance: To keep the product in good condition for a long time, we recommend cleaning it regularly; more often in very damp locations with a marine climate. It is recommended to clean the surfaces using a soft cloth with water or mild detergents. Prolonged and continuous exposure to intense UV radiation or very low temperatures can affect the initial characteristics of the coloured coating, which is made from polyester. Removing stains or rust: apply a specific non-abrasive detergent/polish for stainless steel; test on a hidden stain to make sure that the original surface finish is not altered; remember to rub lengthwise (not in a circle); do not use abrasive pads; rinse thoroughly with clean water; finally dry thoroughly to prevent streaks, rub in the direction of the fibres. Clean using a mild detergent product and soft cloth.

Cushion Material

Acrylic Fabric

The 100% acrylic fabrics combined with a polyurethane internal coating. This step makes it water-repellent, highly resistant to UV rays for excellent outdoor performance.
