

# NERD COUNTER & BAR STOOL

**DAVID GECKELER ON THE DESIGN** "Nerd Bar Stool takes a playful approach to the archetypal wooden chair through its innovative integration of seat and back, adding to the design's unique expression. While its details are contemporary and unique in their own way, the overall expression of the chair ties in with the honest values of Scandinavian design. Nerd Bar Stool brings new perspectives to Scandinavian design by combining the traditional material of wood with a simple yet eccentric design language, making for a timeless chair that adds character to any space."
