Range

The new suspension Dipping Light gets rid of everything to keep only the essential, with colour taking centre stage. When using several lamps to make a composition, the visual effect is mesmerising. This new version comes in three sizes, with 13,5, 20 and 30 cm diameters.

For mounted canopy installation

Take into account the total power in watts, the power of the driver, and the wire entry points of the canopy. The total wattage of the selected lamps elements cannot exceed the max wattage of the canopy's driver. Therefore, you must choose your canopy/driver by the power required. Finally, the number of lamps installed in a single canopy cannot exceed the number of wire entry points of that canopy.

Canopy 20W/ Circular

Canopy 50W/ Circular

Canopy 50W/ Rectangular

Canopy 50W/ Circular

Canopy 100W/ Circular

Power

- Dipping light 13 5,2W
- Dipping light 20 5,2W
- Dipping light 30 9,9W

Wire entry points

- Canopy 20W/ Circular 3
- Canopy 50W/ Circular 5
- Canopy 50W/ Rectangular 9
- Canopy 50W/ Circular 9
- Canopy 100W/ Circular 19

Black electrical cord

This system makes it possible to connect several suspension lamps into a single point of light, offering the absolute freedom to build with light. The Cluster accessory helps to illuminate large spaces or create compositions with the Dipping Light collection or the Ginger 20 model.
