

wästberg / w 102 chipperfield

Product Information

This lamp references an archetypal personal desk lamp for home or office use, and seeks to offer a fresh interpretation of the familiar on a domestic scale. The lamp is predominantly made from brass – a material commonly associated with lights, though not so widely used today. The intention was to create a simple form with a clear distinction between a base, a single arm and a lamp head. The lamp has no visible joints and minimal directional movement, without compromising its function.

Design: David Chipperfield

Solid brass	w 102 chipperfield is made of solid brass. The base is forged and the shade is spun. The parts are brushed and treated with a clear matt lacquer.
Integrated LED	The light technology is based on an energy-efficient, high quality LED solution, which gives a warm white light.
Optical lenses	Optical lenses offer good light distribution and glare-protection.
Smooth rotation	A ball bearing construction enables smooth rotation between the upper and lower base parts.
Adjustable shade	The shade can be adjusted 140° (+/- 70°) around its horizontal axis.
Dimmable	The integrated dimmable LED driver is operated by a dimmer button, made of solid brass.

Product name	w102 chipperfield		
Dimensions (mm)			
Model	Table lamp		
Mounting	Base		
Material	Solid brass		
Cord length	230 cm		
Light source	Integrated LED – included		
Watt	4 W		
Lumen	350		
Lumen/W	88		
Colour temperature	3000 K		
CRI	> 90		
Light source life expectancy	50.000 h		
Light control	Dimmable		
Energy class	A+		
Packaging dimensions	L58,5 x W32,5 x H17 cm (0.033 m³)		
Packaging weight	4 kg		
	Colour	EAN code	Art. no.
	Brass	7330492005003	102T100

Wästberg is a Swedish lighting company aimed at bringing back light to human proximity, by restoring the private spheres man has been deprived of during decades of misguided pursuit of efficiency and standardisation. The universally acclaimed lamps are created in close collaboration with some of the world's most renowned architects, designers and lighting experts, and have earned prestigious awards for their combination of aesthetics, cutting-edge technology and resource conservation.
